THERE are few securities today that are as safe to buy as the stocks of well managed and dividend-paying Gas and Electric Light Companies.

The time to buy such stocks is when they are first issued by the Company and can be bought at their par value.

I own and offer 275 shares of the 6% to 7% Preferred Stock of the Rockville-Willimantic Lighting Company; a stock just issued by the Company, at par \$100 a share and accrued dividend, one share or more as long as it lasts.

This Company furnishes the entire electric light and gas service in Rockville, Stafford Springs, Willimantic and intervening territories, serving a population of over 32,000, under a perpetual franchise, granted by the State of Connecticut.

The Officers and Directors of the Company, who are as follows, are all well known and represent the best class of business interests in the State of Connecticut.

WALTER LEARNED, President,	New London, Conn.
H. C. MURRAY, Vice-President,	Willimantic, Conn.
ALEXANDER J. CAMPBELL, Treas. and Gen. Manager,	New London, Conn.
H. STUART HOTCHKISS, Director,	New Haven, Conn.
CHARLES F. HARWOOD, Director,	Stafford Springs, Conn.
JOHN H. GOSS, Director,	Waterbury, Conn.
W. N. LEWIS, Director,	Rockville, Conn.
J. A. SOUTHARD, Director,	New London, Conn.
THOMAS C. PERKINS, Director,	Hartford, Conn.

This stock is preferred to assets as well as to dividends. It pays 6% dividends quarterly and will pay 7% later.

It is my judgment that this stock will sell at \$125 a share or better within the next two years, and I recommend it to any one with \$100 or more to invest, as a safe investment that will pay from 6% to 7%, tax free in Connecticut.

For those whose funds are not available immediately, I will carry this stock a reasonable length of time without expense.

Special circular giving full particulars of this security sent on request.

If you have \$100, \$1,000, or \$10,000, to invest, call, write or telephone—2700 Hartford—at my expense, at once.
